

# FORENSIC VIDEO ENHANCEMENT

DLA is the exclusive Africa Agent for the worlds leading Video Enhancement Software. Enhancement capabilities include video from static cameras, roadside cameras, LPR, mobile phones and body cameras. Ikena Forensic equips analysts with tools to enhance faces, registrations and improved levels of detail to produce forensically acceptable evidence

## 1 IMPORT 2 ENHANCE 3 EXPORT

Trusted by organizations like the U.S. Secret Service, NCIS, Scotland Yard, and NYPD, our Windows-based solution does not require any special hardware or time-consuming training. Enhancing your video can be achieved in 3 simple steps: import, enhance and export.

# FORENSIC VIDEO ENHANCEMENT SOFTWARE

**MAKING THE "IMPOSSIBLE"  
VERY POSSIBLE!**

Full details and demo videos available  
at [www.cellularforensics.co.za](http://www.cellularforensics.co.za)

Digital video enhancement is a highly specialised field requiring a combination of high end hardware and state of the art software. DLA is proud to be the appointed agent for Ikena as the global leader in forensic video enhancement. We provide forensic image enhancement as an ad-hoc service as well as consulting and providing the required software should you require an in-house ability.
